In Olden Times. People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which set for a time, but finally injure the system.

PRIETAS MINES.

The Famous Mine Sold To An English Syndicate.

The Minas Prietas mine in Sonora has passed into the possession of the English owners at a fabulous price. The Star says, Howell Hine, the manager and one of the late owners, will still have charge of the works. "Eight or ten Englishmen and others interested in the transaction came up from the mine something more than a week ago. Some of them were going home and others were going to California. The bulk of the money in the party was in possession of one man. Before reaching Nogales one of the westbound Englishmen said to the treasurer pro tem. "Let me have enough money to pay our expenses until we reach San Francisco." The treasurer produced a stack of bills nearly three inches thick. The bills were of the denominations of ten's, twenty's fifty's and 100's. "Help yourself!" said he. The other sized up the stack and carefully lifted off about one-third of it and thrust the bills into his trousers pocket. "Shall I give you a receipt?" he inquired. "Oh no, you need not do so," replied the other as he replaced the stack in a spacious pocket. I don't know how much you've taken, nor do you, but I know how much was in the pile before your assault upon it. At my leisure I'll count what you've left and we'll adjust the matter when we meet on the other side of the pond."
